Perceptive Content Runtime Database Connector 2.2 (October 2024) 4

Perceptive Content Runtime Database Connector 2.0.10 (October 2023) 4

Perceptive Content Runtime Database Connector 2.1 (October 2024)

The following updates are included in this release.

Updates

- Updated third party dependencies to correct vulnerabilities. (PER-9082)
- Perceptive Content Runtime Database Connector now requires Perceptive Connect Runtime 2.2. (PER-9082)
- Upgraded the H2 database driver from 1.4.196 to 2.2.224. The 2.x driver is not compatible with the older 1.x H2 databases. To use the H2 driver with an existing 1.x database you must manually migrate your 1.x H2 database to a 2.2.224 H2 database.
- Upgraded the PostgreSQL driver from 9.2-1002.jdbc4 to 42.7.3. The updated PostgreSQL driver does not allow the Description field in connection descriptions.
- Upgraded the Oracle driver from oraclejdbc-7 version 12.1.0 to ojdbc8 version 23.3.0.

Note You must reconfigure any existing H2, PostgreSQL, and Oracle Connection Descriptions to target the new drivers as any existing descriptions target their old drivers explicitly.

Perceptive Content Runtime Database Connector 2.0.10 (October 2023)

Updates

- Resolved an issue with connector bundle signing that prevented proper licensing. (PER-9068)
