# Perceptive Experience Content Apps Technical Specifications

Content Apps in this release provides you with the Content Capture, Documents, Tasks and Workflow functionality. With these Apps you can view and manage your content with the convenience of a web browser outside of Perceptive Content itself.

The technical specifications in this document are specific to Content Apps version 1.2 and represent the specifications required to run all packages included in this release. Some individual package specifications may vary. For individual package specifications refer to the Annotations, Content Capture, Documents, and Forms sections below.

## Desktop Browsers

- Microsoft Internet Explorer 11
- Mozilla Firefox
- Google Chrome
- Apple Safari

Supported browser versions are listed, however, we recommend that you upgrade to the latest patch of the supported browsers. Note that some browsers release automatic updates and some browsers no longer support version numbers.

Browser versions that update automatically after you install are also assumed to work unless otherwise noted. Contact Enterprise Software Support if you find browser incompatibility.

## Network Connectivity

Supported products with 3G, 4G, or Wi-Fi connectivity.

## Prerequisite Software

- Perceptive Content Client 7.1.3.x
- Perceptive Content Server 7.1.3.x
- Integration Server 7.1.3.x
- File Conversion Service 2.2.2 (to support Documents and Annotations)
- Perceptive Web Capture (to support web scanning with Content Capture)

# Content Capture specifications

Content Capture allows you to capture items and review them before you save them as a document in Perceptive Content for further processing. The technical specifications in this document are specific to Content Capture version 1.1.

## Desktop Browsers

- Microsoft Internet Explorer 11
- Mozilla Firefox (Microsoft Windows OS)
- Google Chrome (Microsoft Windows OS)
- Apple Safari (Mac OS v10.10)

**Note:** File capture is supported on Mac OS, but scanning is not.

Supported browser versions are listed, however we recommend that you upgrade to the latest patch of the supported browsers. Note that some browsers release automatic updates and some browsers no longer support version numbers.

Browser versions that update automatically after you install Perceptive Experience are also assumed to work unless otherwise noted. Contact Enterprise Software Support if you find browser incompatible.

## Software

- Perceptive Content Client 7.1.3.x
- Perceptive Content Server 7.1.3.x
- Integration Server 7.1.3.x
- Perceptive Web Capture (Optional. To support web scanning)
- A Cloud Certified ISIS driver (Optional. To support web scanning)

## Compatibility

We recommend that you install the Perceptive Experience Apps on the same web server as Integration Server to support the known functionality of the identified browsers.

## Additional specifications

Refer to the following technical specifications for additional information.

- [Perceptive Content 7.1.x Technical Specifications](#)

# Documents specifications

Perceptive Experience allows you to view and manage your structured and unstructured digital content on any device. The technical specifications in this document are specific to Documents version 2.7.

## Desktop Browsers

- Microsoft Internet Explorer 11
- Mozilla Firefox (Microsoft Windows OS)
- Google Chrome (Microsoft Windows OS)
- Apple Safari (Mac OS v10.10)

Supported browser versions are listed, however we recommend that you upgrade to the latest patch of the supported browsers. Note that some browsers release automatic updates and some browsers no longer support version numbers.

Browser versions that update automatically after you install Perceptive Experience are also assumed to work unless otherwise noted. Contact Product Support if you find browser incompatibility.

## Software

- Perceptive Content Client 7.1.3.x
- Perceptive Content Server 7.1.3.x
- Integration Server 7.1.3.x
- Optional. File Conversion Service 2.2.2

**Note:** File Conversion Service 2.2.2 is compatible with Client and Server 7.1.3 only. To view the file types supported by ISYS doc filters, you need to install Client and Server 7.1.3 and File Conversion 2.2.2.

## Compatibility

We recommend that you install the Perceptive Experience Apps on the same web server as Integration Server to support the known functionality of the identified browsers.

## Additional specifications

Refer to the following technical specifications for additional information.

- [Perceptive Content 7.1.x Technical Specifications](#)

# Annotations specifications

Perceptive Experience allows you to view and manage your structured and unstructured digital content on any device. The technical specifications in this document are specific to Annotations, version 2.5.

## Desktop Browsers

- Microsoft Internet Explorer 11
- Mozilla Firefox (Microsoft Windows OS)
- Google Chrome (Microsoft Windows OS)
- Apple Safari (Mac OS v10.10)

Supported browser versions are listed, however, we recommend that you upgrade to the latest patch of the supported browsers. Note that some browsers release automatic updates and some browsers no longer support version numbers.

Browser versions that update automatically after you install are also assumed to work unless otherwise noted. Contact Enterprise Software Support if you find browser incompatibility.

## Software

- Perceptive Content Client 7.1.3.x
- Perceptive Content Server 7.1.3.x
- Integration Server 7.1.3.x
- File Conversion Service 2.2.2

## Compatibility

We recommend that you install the Perceptive Experience Apps on the same web server as Integration Server to support the known functionality of the identified browsers.

## Additional specifications

Refer to the following technical specification for additional information.

- [Perceptive Content 7.1.x Technical Specifications](#)

## Forms specifications

Perceptive Experience allows you to view and manage your structured and unstructured digital content on any device. The technical specifications in this document are specific to Forms, version 2.1.

## Desktop Browsers

- Microsoft Internet Explorer 11
- Mozilla Firefox (Microsoft Windows OS)
- Google Chrome (Microsoft Windows OS)
- Apple Safari (Mac OS v10.10)

Supported browser versions are listed, however, we recommend that you upgrade to the latest patch of the supported browsers. Note that some browsers release automatic updates and some browsers no longer support version numbers.

Browser versions that update automatically after you install Perceptive Experience are also assumed to work unless otherwise noted. Contact Enterprise Software Support if you find browser incompatibility.

## Software

- Perceptive Content Client 7.1.3.x
- Perceptive Content Server 7.1.3.x
- Integration Server 7.1.3.x

## Compatibility

We recommend that you install the Perceptive Experience Apps on the same web server as Integration Server to support the known functionality of the identified browsers.

## Additional specifications

Refer to the following technical specification for additional information.

- [Perceptive Content 7.1.x Technical Specifications](#)

## Tasks specifications

Perceptive Experience allows you to view and manage your structured and unstructured digital content on any device. The technical specifications in this document are specific to Tasks version 1.7.x.

## Desktop Browsers

- Microsoft Internet Explorer 11
- Mozilla Firefox (Microsoft Windows OS)
- Google Chrome (Microsoft Windows OS)
- Apple Safari (Mac OS v10.10)

## Mobile Browsers

- Apple Safari (iOS 8 for iPhone)
- Apple Safari (iOS 8 for iPad)

Supported browser versions are listed, however we recommend that you upgrade to the latest patch of the supported browsers. Note that some browsers release automatic updates and some browsers no longer support version numbers.

Browser versions that update automatically after you install Perceptive Experience are also assumed to work unless otherwise noted. Contact Product Support if you find browser incompatibility.

## Software

- Perceptive Content Client 7.1.3.x
- Perceptive Content Server 7.1.3.x
- Integration Server 7.1.3.x
