About Perceptive Connect Runtime technical specifications

Perceptive Connect Runtime is the connector hub that allows you to create, configure, and enable channels that map data and functionality between Hyland Enterprise Software products and your business applications.

Hyland Enterprise Software offers a variety of connectors for use with Perceptive Intelligent Capture, PeopleSoft, SAP, and more. These connectors provide triggers and actions for use in customizing channels that meet your needs and bridge the gaps between your business applications. For information about available connectors, contact your Hyland Enterprise Software representative.
