Perceptive Connector for Infor (September, 2021)

Perceptive Connector for Infor allows the process of invoice creation in CSF and Lawson APIA. You can use this connector to integrate Percpetive Content with Infor CSF and with Lawson APIA.

This release includes the following version.

- Perceptive Connector for Infor 3.0.1

Enhancement

- Perceptive Connector for Infor CloudSuite Financials (CSF) is renamed as Perceptive Connector for Infor Financials and Supply Management (FSM).

Update

The following update is included in this release.

- Resolved the issue related to incompatibility with the bundles- Perceptive Content 7.2.2.382, PCR 1.5.4, Infor Lawson APIA Connector 2.1, Perceptive Content Connector 1.2.5. (PCFI-369)

Perceptive Connector for Infor (April, 2020)

Perceptive Connector for Infor allows the process of invoice creation in CSF and Lawson APIA. You can use this connector to integrate Percpetive Content with Infor CSF and with Lawson APIA.

This release includes the following version.

- Perceptive Connector for Infor 3.0.

Enhancements

The following enhancements are included in this release.

- The product Perceptive connector for AP Invoice Automation is renamed as Perceptive Connector for Infor, version 3.0. Perceptive Connector for Infor provides support for Infor CloudSuite Financials (PCFI-324).
- You can post invoice to Infor CSF using Perceptive Connector for Infor. (PCFI-325)
- Perceptive Connector for Infor provides support for Java 1.8 and OpenJDK 11. (FPAPRO-797)
- Perceptive Web and WebNow are no longer supported. The GetDocumentURL web-method now returns a Perceptive Experience Documents App deep link. (PCFI-323)

Perceptive Connector for Infor Lawson AP Invoice Automation Release (February, 2019)

This release includes the following version.

- Perceptive Connector for Infor Lawson AP Invoice Automation 2.1.0.

Enhancements

The following enhancements are included in this release.

- Perceptive Connector for Infor Lawson AP Invoice Automation allows you to view the specific APIA error message string in the Notes field. (OR-65)
- You can now view the error message when the CreatePayablesInvoiceDetail call fails. (OR-66)
- You can capture Payables Invoice Number for updating document metadata. (OR-67)

Update

The following update is included in this release.

- Resolved the issue related to View Image link not appearing on saving an Invoice document locally from Lawson. (PCFICV-30)

Perceptive Connector for Infor Lawson AP Invoice Automation Patch Release (January, 2019)

This release includes the following version.

- Perceptive Connector for Infor Lawson AP Invoice Automation 2.0.1.
- The following update is included in this release.

Updates

- Resolved the issue related to PCR logging typographical mistakes. (PCFICV-25)
- Resolved the issue in checking the correct value of the base URL connector. (PCFICV-29)

Perceptive Connector for Infor Lawson AP Invoice Automation Release (August, 2018)

This release includes the following version.

- Perceptive Connector for Infor Lawson AP Invoice Automation 2.0.0.

Enhancements

The following enhancements and updates are included in this release.

- Perceptive Connector for Infor Lawson AP Invoice Automation allows you to update status during outbound call for PayablesInvoiceHeader. (PCFICV-2)
- Perceptive Connector for Infor Lawson AP Invoice Automation allows secure inbound communication. (PCFICV-3)

- In the notes field, date/time stamp is added to indicate when an invoice is created or updated. (PCFICV-5).
- Perceptive Connector for Infor Lawson AP Invoice Automation is now certified to work with Perceptive Content Connector 1.2.5. (PCFICV-6)

Updates

The following updates are included in this release.

- Currently, the number of channels to be configured is now reduced from three to two. The two channels are an invoice creation channel and an invoice update channel. (PCFICV-6)
- During invoice creation, enhanced configurability in channel mapping allows you to select the required invoice field that needs to be mapped.(PCFICV-6)
- There is performance improvement and significantly shorter turnaround time in terms of invoice creation and update. (PCFICV-6)

Perceptive Connector for Infor Lawson AP Invoice Automation Release (Dec 20, 2017)

This release includes the following version.

- Perceptive Connector for Infor Lawson AP Invoice Automation 1.6.2.

The following update is included in this release.

Update

- Resolved an issue where the incorrect Webnow URL for a document was erroneously retrieved by the Infor Lawson AP Invoice Automation application while making a call using the GetDocumentUrl API provided by the Infor Lawson Connector. (TFS 62983)

Perceptive Connector for Infor Lawson AP Invoice Automation Release (May 18, 2016)

This release includes the following version.

- Perceptive Connector for Infor Lawson AP Invoice Automation 1.6.1.

The following enhancements and updates are included in this release.

Enhancements

- Perceptive Connector for Infor Lawson AP Invoice Automation is now certified to work with Perceptive Content 7.2. (US 105688)
- Perceptive Connector for Infor Lawson AP Invoice Automation is now certified to work with Perceptive Connect Runtime 1.5. (US 105688)

- Perceptive Connector for Infor Lawson AP Invoice Automation now supports three newly added APIA fields in its webservice signature, including “DistributionDate,” “PaymentCode,” and “IsVendorAgreement.” (US 95174)

Updates

- Resolved an issue that changed the SSL enabled WebNow URL and Perceptive Web URL to an invalid DocumentURL when Infor Lawson APIA requested the document link. (TFS 10806)
- Resolved an issue that erroneously displayed the date for the previous day in YYYYMMDD format for an invoice mapped to any time zone including GMT and west of GMT. However the correct date displayed for an invoice mapped to any time zone east of GMT. (TFS 10807)

Perceptive Connector for Infor Lawson AP Invoice Automation Release (December 14, 2015)

This release includes the following version.

- Perceptive Connector for Infor Lawson AP Invoice Automation 1.5.0.3

The following enhancement and update are included in this release.

Enhancement

- Added the option of mapping errors to two new custom properties, "APIA Error Type" and "APIA Error Message," to improve the visibility of error type and error messages. These mapping options are in addition to populating the full error message to the Notes field. (US 87355)

Update

- Resolved a date format issue that caused the mapping of date type custom properties to Infor Lawson APIA to fail, because Infor Lawson APIA required the date in a specific format. (TFS 10781)

Perceptive Connector for Infor Lawson AP Invoice Automation Release (October 08, 2015)

This release includes the following version.

- Perceptive Connector for Infor Lawson AP Invoice Automation 1.4.0.3

The following updates are included in this release.

Updates

- Perceptive Connector for Infor Lawson AP Invoice Automation now returns “TIF” as the value for FileType for any G42 file when the GetDocumentPage method is called. (TFS 10702)
- Resolved an issue where Perceptive Connector for Infor Lawson AP Invoice Automation was unable to route some Perceptive Content documents to the Infor APIA Processing and Infor APIA Success queues while processing a large number of documents. This issue occurred after Perceptive Connect Runtime was upgraded to version 1.2. To resolve this issue, a new process identifier string, "GLOBAL", was added to the CreatePayablesInvoice and DocumentUpdate triggers. (TFS 10710)

Perceptive Connector for Infor Lawson AP Invoice Automation Release (September 08, 2015)

This release includes the following version.

- Perceptive Connector for Infor Lawson AP Invoice Automation 1.3.1.7

The following enhancement and updates are included in this release.

Enhancement

- Perceptive Connector for Infor Lawson AP Invoice Automation is now certified to work with Perceptive Connect Runtime 1.2. (US 80337)

Updates

- Resolved an issue that caused Perceptive Connector for Infor Lawson AP Invoice Automation to stop responding while updating Infor Lawson with DCExport data, if the DCExport data did not contain the FinanceGroup tag. (TFS 10641)
- Resolved a mapping issue where values of PORELEASE and POCODE from the header could not map to line items if the PORELEASE and POCODE tags at PO line level, defined in the DCExport data, had blank values. (TFS 10658)

Perceptive Connector for Infor Lawson AP Invoice Automation Release (July 30, 2015)

This release includes the following version.

- Perceptive Connector for Infor Lawson AP Invoice Automation 1.3.0.2

The following enhancement is included in this release.

Enhancement

- CreatePayablesInvoiceAction.xml now supports ContextList mappings for Invoice Detail that enables users to map line items between DCExport data and Infor Lawson APIA. (US 36545)

Perceptive Connector for Infor Lawson AP Invoice Automation Release (July 21, 2015)

This release includes the following version.

- Perceptive Connector for Infor Lawson AP Invoice Automation 1.2.3.6

The following enhancements and updates are included in this release.

Enhancements

- The Infor Lawson APIA Configuration dialog box that appears when you click Infor Lawson APIA Configuration from the View Configuration page of the Perceptive Connect Runtime Web Console now allows users to provide the Header Namespace and Detail Namespace settings. (US 69128)
- Perceptive Connector for Infor Lawson AP Invoice Automation now supports Java Runtime Environment version 1.8. (US 69128)
- Perceptive Connector for Infor Lawson AP Invoice Automation is now certified to work with Perceptive Connect Runtime 1.1. (US 62986)
- Users can now map custom tag names of the DCExport data to CreatePayablesInvoiceAction by adding them to the “trigger” tag under parameter tag of the CreatePayablesInvoiceAction.xml file. (US 75048)

Updates

- Resolved an issue that caused some of the documents with errors to remain in the processing queue indefinitely instead of being routed to the processing error queue when multiple documents with errors were processed. (TFS 10529)
- Resolved an issue that caused the connector to update the invoice date in custom property to previous date if Perceptive Connect Runtime was installed in a location towards the west of GMT. (TFS 10577)
- Resolved an issue that caused Perceptive Connector for Infor Lawson AP Invoice Automation to pass a zero value as External Reason Code even if it had a different value. (TFS 10580)
- Removed the Infor APIA Processing Error queue from the workflow and updated the document routing logic to avoid complexity while routing Perceptive documents to the error queue. (TFS 10581)
- Resolved an issue that failed to update PO data in the custom properties of a Perceptive Content document if a PO document was changed to non-PO in Infor Lawson APIA. (TFS 10582)

Perceptive Connector for Infor Lawson AP Invoice Automation Release (March 17, 2015)

This release includes the following version.

- Perceptive Connector for Infor Lawson AP Invoice Automation 1.1.0.10

The following enhancements are included in this release.

Enhancements

- Perceptive Connector for Infor Lawson AP Invoice Automation now supports processing of invoices that have not been processed by Perceptive Intelligent Capture. (US62985)
- Perceptive Connector for Infor Lawson AP Invoice Automation now supports processing of invoices without invoice lines, when used with Perceptive Intelligent Capture. (US63246)

Perceptive Connector for Infor Lawson AP Invoice Automation Release (January 22, 2015)

This release includes the following version.

- Perceptive Connector for Infor Lawson AP Invoice Automation 1.0.2.118

The following enhancement and updates are included in this release.

Enhancement

- The GetDCExportObject.js file was modified to log errors in the log directory of Perceptive Content. (US 63004)

Updates

- Resolved an issue in the GetDCExportObject.js file that caused the iScript to fail if the installation drive for Perceptive Content was other than “C:.” (TFS 10404)
- Resolved an issue that caused the CreatePayablesInvoiceAction to fail if a null value was obtained from the DCExport data. (TFS 10405)

Perceptive Connector for Infor Lawson AP Invoice Automation Release (August 11, 2014)

This release includes the following version.

- Perceptive Connector for Infor Lawson AP Invoice Automation 1.0.0.116

Perceptive Connector for Infor Lawson APIA (AP Invoice Automation) provides an integration framework that helps communication between ImageNow and the Infor Lawson APIA. Using the Infor Lawson connector, you can seamlessly create financial accounting and invoice processing transactions within the Infor Lawson environment directly from ImageNow. For information on installing Perceptive Connector for Infor Lawson AP Invoice Automation, refer to the *Perceptive Connector for Infor Lawson AP Invoice Automation Installation Guide*. For information on how to integrate ImageNow, Perceptive Connector for Infor Lawson AP Invoice Automation, and Infor Lawson APIA, refer to the *Perceptive Connector for Infor Lawson AP Invoice Automation Integration Guide*.
