About Perceptive Interact for Dynamics AX

Use Interact for Microsoft Dynamics AX to integrate document capture and retrieval technology directly within AX 2012 screens. Store and retrieve documents with drag-and-drop simplicity and reference documents in the context of a customer-defined folder hierarchy, fully secured by the AX role they are performing within the application. Interact for Dynamic AX can also accommodate unstructured and diverse documents, such as those found in project management. You can open documents instantly with a single-click from the thumbnail preview.

Technical specifications

Specification	Description

Accessibility	<p>100 MB network minimum, configured at full duplex, is required and a 1 GB network is recommended.</p>
Available Memory	<p>Server computers:</p> <p>Minimum: 8 GB</p> <p>Recommended: 14 GB</p> <p>Client computers:</p> <p>Minimum: 2 GB</p> <p>Recommended: 4 GB</p>
Disk Space	<p>1 GB hard disk space required.</p>

Note Microsoft Dynamics AX does not support the Enterprise Portal.

About Perceptive Connector for Microsoft Dynamics AX

Perceptive Connector for Microsoft Dynamics AX is a SOAP-based web service that you can integrate with your application to fetch data from Microsoft Dynamics AX and create an invoice.

For example, if you integrate Perceptive Connector for Microsoft Dynamics AX with an eform, it acts as a medium layer that fetches data from Microsoft Dynamics AX to populate fields in the eform. Based on the populated fields, you may create an invoice in Microsoft Dynamics AX.
