Perceptive SOAPBridge Connector

SOAPBridge Connector is a REST service that allows you to facilitate automated, back-end integration of your SOAP business application.

The following table describes the requirements for SOAPBridge Connector.

Specification	Description
Compatible Software	Perceptive Connect Runtime, version 2.0.x
Software	Java SE Runtime Environment, version 1.8 and 11 (32-bit or 64-bit)
Browser	We recommend Google Chrome.
Testing Tool	We recommend SoapUI for testing calls.
