Perceptive Transcript eForm 2.4 Release (November, 2019)

This release includes the following version.

- Perceptive Transcript eForm 2.4

Enhancements

This release includes the following enhancements.

- Perceptive Transcript eForm provides the ability to autocomplete related course review eforms. (TE-4)
- The eForm allows you to view course equivalency data outside the Perceptive Content workflow queues. (TE-11)
- The eForm provides support for adding or removing course line items from the Academic Summary fields for the University transcripts. (TE-23)
- The eForm allows you to select one-to-many equivalent courses for a specific external transcript. (TE-23, TE-430)
- The eForm now supports Perceptive Experience Content Apps, versions 2.4 and 3.0. (TE-465)

Perceptive Transcript eForm 2.3 Release (March, 2019)

This release includes the following version.

- Perceptive Transcript eForm 2.3

Enhancements

This release includes the following enhancements.

- Perceptive Transcript eForm now allows you to fetch student information in multiple passes as configured by the administrator. (TE-366)
- For multi-district University transcripts, Perceptive Transcript eForm now creates multiple documents based on the number of unique college codes. (TE-31, TE-376, TE-385)
- You can now convert multiple date formats from Brainware for Transcripts (BFT) to the MM-DD-YYYY format. (TE-407, TE-379)

Perceptive Transcript eForm 2.2 Release (September, 2018)

This release includes the following version.

- Perceptive Transcript eForm 2.2

Enhancements

This release includes the following enhancements.

- The course works are now sorted in the descending order of the "Year" information or "Date Completed" information. (TE-117)
- You can now group the courses with similar term details. (TE-356, TE-82, TE-78, TE-69, TE-357)
- A new custom property "AutoReviewSingleEquivalentCourse" is added in the Transcript Document Type, which can create a review document for a single equivalent course. (TE-56)
- You can now re-export the University courses using the configuration setting "EFORM_FORCE_ EXPORT". (TE 111)

Perceptive Transcript eForm 2.1 Release (March, 2018)

This release includes the following version.

- Perceptive Transcript eForm 2.1

Enhancements

This release includes the following enhancements.

- The Transcript eForm can display all types of incoming High School coursework data. (US 35114, US 39690)
- You can now manually add, delete, and edit the High School coursework data. (US 35117)
- The export XML generated for High School transcript now includes coursework data. (US 35124)
- The High School eForm, Military eForm, and University eForm can now be rendered in Perceptive Experience Content Apps, versions 2.0.0, 2.2.0, and 2.3.0. (US 39844, US 39846, US 39848, US 39847, US 39580)

Perceptive Transcript eForm 2.0 Release (April, 2017)

This release includes the following version.

- Perceptive Transcript eForm 2.0

Enhancements

This release includes the following enhancements.

- In Military transcripts, for each section of coursework, Add and Remove icons are added. (US 35367)
- Ten additional custom fields are available to lasso data from the Transcript and are exported to Perceptive Content eform fields. (US 35373)
- In Joint Services transcripts, new fields such as "Start Date", "Credits", "Credit Area", and "Level" are added. (US 35369, US 35360, US 35359)
- In High School transcripts, new fields such as "Total" and "EBRW" are added to the SAT scores. (US 35363, US 10 35366)
- In High School transcripts, SAT scores, ACT scores, and Other scores can now be exported from Perceptive Intelligent Capture. (US 35370)
- SAT score ranges for tests given after March 2016 are supported. (US 10 35362, US 10 35365)

- The ACT score tooltip is updated with the new score range. Under SAT scores, in the "Date" field, the day is no longer required and in the Total field, the value is automatically calculated. (US 35368)

Perceptive Transcript eForm 1.1.1 Release (May, 2015)

This release includes the following version.

- Perceptive Transcript eForm 1.1.1

Enhancements

This release includes the following new enhancements.

- Perceptive Transcript eForm is now certified to work with Perceptive Content 7.0. (US72370)
- The Transcript eForm file name now contains applicant ID, site ID, or both. The file name now displays in the following format: "ContentDocID^ApplicantID^ApplicantSiteID.tif". (US66008)

Updates

- Resolved an issue that did not allow two or more transcripts with identical student ID and institution ID to merge when the student ID and institution ID were mapped to custom properties. (TFS 10475)
- Resolved an issue in the Perceptive Transcript Connector that displayed an unexpected error when exporting a document when student ID and institution ID were mapped to custom properties. (TFS 10532)
- Resolved an issue that displayed incorrect version number in "Equivalency Review eForm" related files of the Forms folder. (TFS 10533)

Perceptive Transcript eForm 1.1.0 Release (April, 2015)

Perceptive Transcript eForm, commonly used as part of the Intelligent Capture for Transcripts solution, provides the ability to enter, edit, and process transcript content with Perceptive Content. This release includes the following version.

- Perceptive Transcript eForms 1.1.0

Enhancements

This release provides the following product enhancements.

- Added Course Equivalency Review eForm, which allows you to process university transcripts to transfer credits from an external institution to an equivalent course in your institution. (US38636, US41966)
- Added the ability to merge old transcripts with a new transcript so that the user can select the new coursework or coursework for which an `equivalency check is not done. (US45248, US48265, US48266)
- Added a check box to select course work for course equivalency and SIS upload. (US 60358)
- Added the GPA field to the Transcript eForm. (US 56314)
- Added user-defined fields to the transcripts. (US51826)
- Added user-defined fields to the Course Equivalency review form. (US 56316)
- Added support for Invalid Reason code routing. (US 57342)

- Enhanced the system to concatenate student name in a configurable way. (US 57345)
- Included institution ID in the same custom property in one place irrespective of the transcript type. (US 57346)

Updates

- Merging is successful when student ID and institution ID are mapped to the custom properties of the BW_Config.xml file. (TFS ID 10475)
