## Overview

This guide contains information about product enhancements and updates in the Saperion 8.1.0 product. Product enhancements list additional functionality available for your system.

## Saperion 8.1.0 Release [*December, 2018*]

This release includes the following version.

- Saperion 8.1.0

## Product enhancements

This release provides the following product enhancements.

### ECM Services

- Introduced the micro service architecture of the ECMS platform. The architecture is supported by the Configuration service, Core Configuration service, ECM service, Authentication service, and the Storage service. These services can be installed in Windows, executed as a standalone Java application, or deployed in an Apache Tomcat server. For installation steps, refer to the Installation section of the Online Help. (SPN-91)

### Java Core Server

- Saperion now supports Oracle OpenJDK 11 and AdoptOpenJDK 11 when the operating system specific JDBC driver is installed. (SE-846)
