## Web VNA specifications

Web VNA is a web-based program that provides administrators with tools to centrally manage medical information systems across the enterprise. A required amount of memory and disk space is provided. You must meet these requirements to support your system. These requirements specifically list the needs of and do not include any amount of memory or disk space you require for the operating system, environment, or other software that runs on the same machine.

### Hardware

The minimum hardware requirements are provided in the following table.

Component	text
Processor	Intel Core Duo
Display	1024 x 768, 32-bit color
Network Interface	10/100/1000 Mbps
Network Protocol	Standard network connection to DICOM devices

### Internet Browser

- Internet Explorer 11
- Chrome
- Firefox
- Safari

### Operating Systems

- Windows Server 2008 R2 (x64)
- Windows Server 2012
- Windows Server 2012 R2

### Web Application Servers

- Microsoft IIS 7.0

## Software

- .NET 4.5.1 or later
- SQL Server 2008 RR SP3 and SP4
- SQL Server 2012 SP2
- AcuoMed

## Memory

- 6 GB RAM

## Disk Space

- 100 MB of free space
