Perceptive Enterprise Deployment Suite 1.2 (October 10, 2014)

Updates

Management Console

- PEDS Management Console: Removed the character limit on the Input box to accommodate the comma-delimited list of all possible values for the ADDLOCAL property. (TFS 9524)

Perceptive Enterprise Deployment Suite 1.2 (August, 2013 - September, 2014)

There are no items included in the August 2013 – September 2014 patches.

Perceptive Enterprise Deployment Suite 1.2 (July 10, 2013)

The following builds are included in this month's patch.

- Perceptive Enterprise Deployment Client 1.2.0.478
- Perceptive Enterprise Deployment Management Console 1.2.0.478
- Perceptive Enterprise Deployment Server 1.2.0.478

Updates

ImageNow Language Pack

- The text in the About dialog box of PEDS Management Console is now translated for all languages. (TFS 7054)

Management Console

- PEDS Management Console now requires a version number when creating a new package. (TFS 6239)

Historical patches

Perceptive Enterprise Deployment Suite 1.2 (January - June 2013)

There are no items included in the January - June 2013 patches.

Perceptive Enterprise Deployment Suite 1.2 (December 10, 2012)

The following builds are included in this month's patch.

- Perceptive Enterprise Deployment Client 1.2.0.463
- Perceptive Enterprise Deployment Management Console 1.2.0.463
- Perceptive Enterprise Deployment Server 1.2.0.463

Update

Management Console

- PEDS Management Console now allows full access to all users. Previously, a permissions issue prevented non-administrative users from accessing the Management Console. (TFS 7061)

Perceptive Enterprise Deployment Suite 1.2 (November 9, 2012)

There are no items included in the November 9, 2012 patch.

Perceptive Enterprise Deployment Suite 1.2 (October 9, 2012)

The following builds are included in this month's patch.

- Perceptive Enterprise Deployment Client 1.2.0.461
- Perceptive Enterprise Deployment Management Console 1.2.0.461
- Perceptive Enterprise Deployment Server 1.2.0.461

Enhancements

ImageNow Language Pack

ImageNow Language Pack makes it possible to run ImageNow anywhere a supported language is spoken, allowing users to interact with the product in a format and display they understand. The ImageNow 6.7 Language Pack supports the following languages:

- Dutch
- English
- French
- German
- Italian
- Portuguese (Brazil)
- Spanish

ImageNow Language Pack provides user interface text and help files in the supported languages for the following products.

- ImageNow Client
- ImageNow Server
- WebNow Client
- Interact Desktop
- Perceptive Enterprise Deployment Suite (PEDS)

ImageNow Language Pack is compatible with installations using SQL databases. ImageNow Language Pack is not supported on Oracle databases at this time. For information about the environments and DBMSs supported in ImageNow Language Pack, refer to the sections for the supported products in the *ImageNow Technical Specifications* for version 6.7.x.

Instructions for applying ImageNow Language Pack are present in *the ImageNow Language Pack Getting Started Guide*, which is available in all of the languages supported by the Language Pack.
