Enhancements 4

Perceptive Interact for Microsoft Dynamics (June 10, 2014)

Enhancements

- Perceptive Interact for Microsoft Dynamics now supports Microsoft Dynamics AX Server version R2 CU7. (US38187)

Perceptive Interact for Microsoft Dynamics Release (January 10, 2013)

Perceptive Interact for Microsoft Dynamics AX is a content management solution for users of Microsoft Dynamics AX. This solution enables you to add and manage documents in ImageNow Server by using the Microsoft Dynamics AX user interface.

In Microsoft Dynamics AX, you can perform many of the key tasks that you can perform in ImageNow, such as capturing documents, assigning a workflow queue, and viewing captured documents.

Perceptive Interact for Microsoft Dynamics AX 2.1 retains the features that were present in the previous version. Additionally, it includes the following enhancements.

Enhancements

- While capturing a document, the Set location dialog box displays a tree view of the subfolders in the base location. (US29381)
- During user login, user can opt to save the log-in credentials. (US29854)
